Summary

Welcome! I'm a driven B.Tech CSE-MBA student at Nirma University, with a proven track record in leadership and academics. As the former Captain of my house, I've guided and inspired peers, and in grade 10 along with 5 other individuals, led a successful financial planning initiative for one of the top-earning stalls. Beyond studies, I'm a passionate sports enthusiast in football, cricket, and volleyball, complemented by my creative pursuits in singing and acting. Driven by a desire to make a positive impact, I aim to leverage my skills in technology and business to contribute meaningfully to society. My journey is marked not just by success but resilience—having faced setbacks, I've bounced back, unwavering in my belief in myself. Let's connect! I'm eager to explore collaboration, networking, and shared growth, as together, we can embark on a journey of innovation and positive impact.
